

ARJUN MEHTA

Embedded Systems Engineer

CONTACT

Hyderabad, India
arjun.mehta@example.com
+91 98765 43210
linkedin.com/in/arjunmehta
github.com/arjunmehta

SKILLS

Languages: C, C++, Python, Embedded C
MCUs: ESP32, STM32, Arduino
Protocols: UART, SPI, I2C, MQTT
Tools: STM32CubeIDE, Arduino IDE, Git, VS Code

EDUCATION

B.Tech, ECE
Vardhan Institute of Technology
2022–2026 | CGPA: 8.7/10

CERTIFICATIONS

ARM Embedded Systems Fundamentals
Python for Everybody
IoT & Embedded Systems

PROFILE

Embedded systems graduate with hands-on experience in microcontrollers, IoT, firmware development, and sensor-based automation. Interested in reliable real-time systems and edge AI.

EXPERIENCE

Embedded Systems Intern — TechNova Labs

Jan 2026 – Mar 2026

- Developed UART-based firmware modules for an STM32 prototype.
- Tested GPIO, timer, and sensor interfaces.
- Documented debugging procedures and test results.

IoT Intern — Remote

Jun 2025 – Aug 2025

- Built ESP32 sensor dashboards using MQTT.
- Integrated environmental sensors and implemented alert logic.

PROJECTS

Smart Irrigation Controller

ESP32, soil-moisture sensor, relay, TinyML. Classified soil conditions and automated irrigation decisions.

Smart Parking System

ESP32, HC-SR04, servo, LCD, Blynk. Designed a simulated parking-slot monitoring and gate-control system.

ACHIEVEMENTS

- Finalist in a college embedded-systems hackathon
- Completed 100+ programming and aptitude practice problems
